New Vision Concepts

Read Easy with EZReader.

Do you or a loved one suffer from low vision and find it difficult to operate a computer?

EZReader touch-screen computer system with document camera and software is your low vision solution.

Computers, laptops and smart phones are more prevalent than ever before. However, these devices are not designed for people with low vision.

The **EZReader by New Vision Concepts** is a custom, all-in-one, touch-screen computer system, that provides a *simple and easy way* for people with low vision impairments to easily use a computer with minimal computer skills.

EZReader Features:

- Clean, Uncluttered Screen
- Unlimited Text Size
- High Contrast Colors
- Easy-to-Use Touch-Screen Navigation

Gary Beene, Inventor of the EZReader System.

For more information about the EZReader System, please visit our website at www.newvisionconcepts.com, call 214.668.9913 or email gbeene@airmail.net.
