Easy Help with EZReader

Worried about learning to use EZReader? Do your computer skills need refreshing?

New Vision Concepts provides in-person help because we recognize how difficult it is for low vision users to use traditional user manuals or online documentation. With EZReader, you get one-on-one customized training that exceeds help available from other systems!

In addition to learning to use the EZReader camera and software suite, EZReader training includes refreshing your computers skills. These free help options are included in your EZReader purchase:

- On-site demonstration
- Free delivery and installation with 2-hour tutorial
- Additional on-site training sessions as needed
- Unlimited technical support, available 7 days a week
- Remote PC viewing and control
- Custom EZHelp smart phone applications

What People Are Saying About EZReader and Gary Beene:

"Gary has always been there for me!"
-Shirley, Frisco

"Gary has been very, very patient with me!"
-Helen, Mesquite

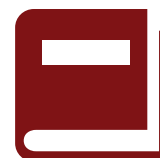

"Given me back my independence!"
-Lenenna, Midlothian

Gary Beene, Inventor
of the EZReader System.
